Summary

Software Developer with a Full Stack Web Dev Certificate seeking opportunity to put learned knowledge to practice in a professional, team environment.

Technical Skills

Languages
- Javascript, HTML, CSS, SQL/MQL, Java, PHP

Tools/Libraries
- Node, Express, React, Pug, MongoDB, Bootstrap, MaterialUI, RESTful API Architecture, Git Version Control, AWS (S3)

PROFESSIONAL EXPERIENCE

What's Around? (Developed w/ Express, pug, MongoDB - Work in Progress)
Web app to look for similar media (movies, books, etc.) and also return nearby events.
Update of a past project (Media Locator - Github) to allow user sign-up and saving of events/items.

- Utilizes pug.js for templating, clearer HTML and reusability.
- Uses third party API's from Google for location data and TasteDive for similar suggestions.

Thrive (Developed w/ React (MERN), MaterialUI - GitHub / Site)   Mar. '20
Mobile based web app for plant lovers to manage their houseplants.

- Allows users to register and sign-in securely with validation both client and server side.
- Maintains user and plant information with MongoDB and mongoose.js schemas.
- Utilizes React Hooks to maintain state across different mobile screens.

MySmartRecipe (Developed w/ Express, handlebars, mySQL - GitHub / Site)   Jan' 20
Responsive website that allows users to take a picture of an ingredient and get recipe suggestions.

- Utilizes handlebars.js for templating and allowing loops with HTML.
- Pictures taken with camera are saved to AWS and using a third party API, recipes are suggested.
- Uses mySQL and sequelize for database and schema management.

Legal Assistant - Skellenger Bender, P.S. (Seattle, WA)   Jun. '18 - Present
Family Law, Estates and Trusts, Adoptions

- Provide direct support to 13 attorneys and 7 paralegals with trial preparation, discovery, office and court procedures, and legal document preparations.
